As an Amazon Associate, I earn from qualifying purchases.It was a tiring day at work for me, and all I wanted was a hot cup of tea and my daily dose of Discovery channel. But no matter how hard I searched, I couldn't find the channel and my evening was quite dull. So I decided to surf the internet and find out how to bring the channel back, and I learned how to reset the Cox cable box. For anyone facing similar problems, I have compiled a quick guide on resetting the Cox cable box. Follow the given steps carefully, and you are good to go.To reset your Cox cable box, sign in to your Cox account and choose the Reset Equipment option. Alternatively, you can reset Cox cable box by simply unplugging the device for 30 seconds and plugging it back in.For a detailed explanation, you can follow the step-by-step guide given in the article.Why Would You Need to Reset the Cox Cable Box?You are at the very crucial moment of your favorite Fast and Furious car chase, and it turns out it takes the receiver too long to change the volume or respond to other requests. It can slow you down from changing channels and even shutting off the TV. Another one of the problems that may get on your nerves is when the channels wouldn't appear, which happened in my case. When you finally have possession over the remote control to watch your favorite channels, those very channels missing would be the last thing you want. Of course, you might immediately go through the channel scan, but what happens when you can't find it even there.Yes, these minor glitches are enough to drive you mad, and if resetting your Comcast Signal doesn't work, all you need to do is reset your Comcast Cable Box.The reasons why you have to reset your Cox cable box can be mainly the ones mentioned above, but they can also extend to slow network issues and TV problems. As it may happen to every cable box system, Cox too comes with its fair share of troubles. And here, we tackle those problems with a simple reset of the cable box.Steps to Reset Cox Cable BoxBefore you get into the actual steps, keep in mind a few things about resetting your Cox cable box. Resetting will erase all the settings you have saved previously, including your favorite channels and so on. It refreshes the system entirely and gives it an extra boost of speed.You can also try to Reset your Cox Remote.Resetting the Cox MiniSome Cox users will not have the Cox cable box, and as a substitute to that, they will have the Cox Mini box. And for the analog TV users, the Mini box is a must-have. So what will you do if it is your Cox Mini that requires resetting? The answer is simple. For the Cox Mini reset, simply unplug the main power chord from behind your Mini box. Wait for about 60-90 seconds before plugging it back inside. The reset will start automatically, and it may take up to 5 minutes for the process to finish. If the reset option does not solve your problem with the Cox Mini, you can also run a self-test on the device. Choose the Customer Support option from the Menu button on your remote. Press the right arrow once and then the down arrow once and press Select. This will show any problems with your Cox Mini box.Reset Cox Cable Box to Resolve ErrorsAlways turn your TV off before doing any sort of hard reset on your device. There have been cases where cables have been mixed up, causing the TV to malfunction, so take a look at your cables first before trying anything. Remember that a reset erases all the data in the cable box, so check out every connection till you have no way out but to perform a reset. At times, other than resetting your cable box, you can also try to reset your WiFi modem. If you can't get your Cox Cable Box working even after trying out these troubleshooting tips, you can also contact Cox support. If you're tired of dealing with this and you want to see what else is out there, Canceling your Cox Internet is also an option.You May Also Enjoy Reading:Frequently Asked QuestionsWhy does my Cox cable box keep blinking?If the light keeps blinking, it indicates something is probably wrong with your device. You can try resetting the cable box as a solution.How do I update my Cox Cable Box?Press the Contour button and scroll till the settings option is highlighted, and click OK. Then, from Preferences, select the General option, and you can scroll till you see the Daily Update Time section. This way, you can update the Cox cable box as per the time you want.Does Cox require a cable box for every TV?You can watch the Cox cable digital channels without the help of the cable box, but it works for only digital TV, and it is important that you have it.How do I connect my Cox cable box to my modem?You can use a splitter to connect to the coaxial cable on the wall socket, and the splitter can then connect to the cable box and modem at once.
